

# Joining a Zoom Meeting

To learn more about joining a Zoom meeting, click [How Do I Join a Meeting](#).

You will need either to load the software on a desktop computer or download the app on a mobile device or tablet. The link shared above lists the process for different devices.

The screen looks slightly different depending on the device you are using and the placement of the icons may be different but the basic information below details the buttons that you will need to use during the meeting.

Click on the mike icon to mute and unmute the mike. A line through mike means it is muted.

Click on the camera icon to share and un-share your video. Line through video = display a black screen. No line = you will share your video.

To raise your hand to speak, click on the Participant icon. At the bottom of the window to the right side of the screen, click the "Raise Hand" button.

Click on chat icon to make the chat box visible. You can submit a question via the chat window and see questions submitted by others.
